Volume 18, Numbers 1–3

CONTENTS

Number 1 **PAGE**

Achievement Surveys in Hungary

Guest Editor's Introduction, *Z. Báthory* 3

International and National Surveys

Effectiveness of Hungarian Science Education in the Past Twenty-three Years — Physics, Chemistry, Biology, *G. Fazekas, E. Gecsö and G. Balogh* 7
Changes in Acquired Mathematical Knowledge — Reform of Mathematics Teaching and Correction of the Reform, *S. Hajdu* 23
Outposts of Modern Education: Computer Literacy at Schools, *P. Vári* 37
English Teaching in Hungary: How Far Behind?, *Z. Dörnyei* 47
Data related to the Level of Reading Skill and to the Possibilities of its Improvement, *K. Demeter* 57

National Surveys and Reports

Can Elementary School Pupils Speak?, *J. J. Nagy* 67
Do they Look for the Meaning of their Life?, *A. Nagy* 75
Corporeal Development and Physical Performance of 10 to 18 Year Old Students, *S. Nagy* 85
The Aims of Education — The State of Hungarian Youth's Education, *J. Szekszárdi* 97

In the Crossfire of Debates

History Teaching — The Volcano of Hungarian Schooling, *P. Szebenyi* 105
Skills in Art Criticism of Hungarian Elementary School Leavers in the 1980s, *A. Kárpáti* 111
Teaching Russian — The Greatest Pedagogical Failure in the Last Forty Years, *Z. Radnai* 123

Number 2

Curriculum Evaluation and Multilevel Analysis: Effects of Cooperative Learning in Mathematics, *J. Terwel and P. van den Eeden* 133
Assessing Reliability and Other Kinds of Consistency: A Method Using Replicated Samples, *E. I. Sawin* 149
The Heterogeneous Class: A Solution or Just Another Problem?, *B. Eilam and M. Finegold* 165
A Spatial Evaluation of Education Provision in Trinidad and Tobago, *N. A. London* 179
Multiple-choice and Open-ended Items in Reading Tests: Same or Different?, *W. B. Elley and F. Mangubhai* 191
The Impact of Counsellors' Qualifications, Counselling Experience and Religious Inclinations on Clients' Rating of Counselling Effectiveness, *T. O. Owuamanam and E. R. I. Afolabi* 201
Summative Evaluation of an Experimental Bilingual Program in Cameroon, *W. N. Ekane* 207
Towards an Effective and Reliable Evaluation of College Teaching Practice, *C. S. Akpe and G. O. Igwe* 221

Application of the Rasch Model to Mathematics Achievement Test, *M. F. Alonge* 227
Consumer Evaluation of Mathematics Curricula in a Nigerian University, *O. A. Afemikhe* 231
Status of Environmental Health in Selected Primary and Post-Primary Schools in the Rivers State: Implications for Environmental Health Education, *M. Osujih* 237
Consumer Evaluation of a Part-Time Teacher Education Programme in a Nigerian College of Education, C. S. Akpe 243
Performance in Physics for Students in Single-sex and Co-educational Secondary Schools in Nigeria, *S. Y. Erinosho* 247
What do Children Say about Science Instruction?, *C. Mordi* 253

Number 3

Practical Skills Testing in Science, *P. Tamir, R. L. Doran and Y. O. Chye* 263
Procedures Used in Practical Skills Testing in Science, *P. Tamir, R. L. Doran, S. Kojima and Z. Báthory* 277
Conditions for Teaching Laboratory Practical Skills, *R. L. Doran, P. Tamir and Z. Báthory* 291
Profiles of Educational Systems of Countries Participating in Practical Skills Testing, *Z. Báthory, P. Vári, P. Tamir, M. Miyake, I. In-Jae, Y. O. Chye, W. Jacobson, R. L. Doran and J. Miller* 301
Instruments and Supporting Materials for Practical Skills Testing in Science, *C. Kay, M. Rosier and P. Tamir* 319
Scoring Guidelines, *P. Tamir and R. L. Doran* 355
Results of Practical Skills Testing, *R. L. Doran and P. Tamir* 365
Conclusions and Discussion of Findings Related to Practical Skills Testing in Science, *P. Tamir and R. L. Doran* 000
